Intro to Data Analytics - DAMC

Ananta Deva

Undergraduate Student | Informatics Engineering

Kota Malang, Jawa Timur, Indonesia

Ringkasan

I'm a Informatics Engineering student currently in my 3rd semester, focusing on front-end development with a strong interest in UI/UX design. While I have gained some hands-on experience through various projects, I am continuously expanding my knowledge in data science, machine learning, and AI. Despite my limited experience, my growth mindset drives me to learn from every opportunity and mistake, aiming to become a well-rounded professional. I look forward to contributing to the tech industry with a blend of creativity, analytical thinking, and a commitment to lifelong learning.
